- PWP shrink bands provide a secure, tamper-resistant seal insuring your product's safety throughout the distribution cycle.
- Applied manually, shrink bands are pre-molded to form a 'lip' and 'skirt' around each specific container-making placement on your product fast and efficient.
- Shrink bands require no investment in costly applications or sealing equipment. The bands shrink in a matter of seconds through any standard heat tunnel or even utilizing a hand-held heat gun.

SHRINK BANDS
